

**Dear Mom and Dad, I chose sandstone as my favorite rock. I chose this rock because I like the way it looks and the way it feels. This rock is found in the middle of the state in Millerstown. Brownstone is a reddish - brownish color was ones use to build houses in the Eastern State. Some of Europe was build by sandstone. The rock can look like a cream, gray, red and brown. It can also be a green color depending on its cements.**

**Love, Claire**
